Colleen Coyne Property Research Company Profile

Colleen Coyne Property Research Pty Limited specialises in strategic advice to property developers. Our research goes beyond the raw data to analyse and interpret the dynamics driving property markets. Our project-specific reports are tailor-made to assist our clients in their decision-making.

Over recent years we have worked extensively in Sydney's growth corridors (Western Sydney, the Central Coast, the Lower Hunter and South Coast/Illawarra) and in South East Queensland, particularly the Gold Coast, Tweed and Scenic Rim. While we operate across all market sectors, we have a strong knowledge base relating to residential land and apartment projects and lifestyle properties in coastal areas.

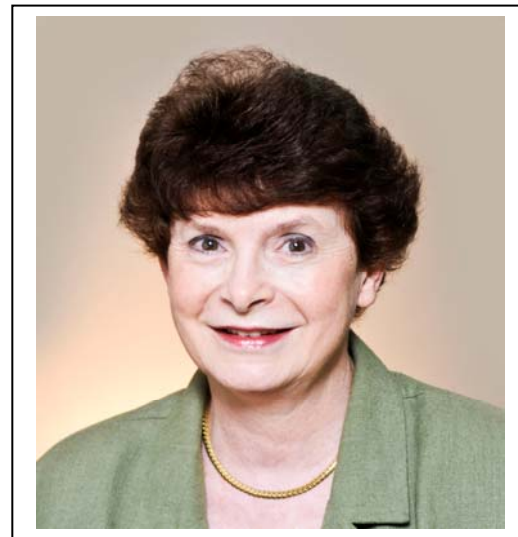

Established in 1999, Colleen Coyne Property Research is based on the Gold Coast, but operates nationally. Most of our client assignments are in New South Wales (NSW), Queensland (Qld) and Victoria. Colleen Coyne is the Director of Colleen Coyne Property Research.

Colleen was previously National Research Director of valuation company LandMark White, based in Sydney. Prior to that she was National Research Director of PRD Consulting Services Pty Ltd, based on the Gold Coast (the consulting arm of PRD Realty, now Colliers).

Our systematic approach to analysing markets means we have the capacity to enter little-known property markets and compile a detailed picture of the situation, identify the potential to create demand for a new project and advise on the likely market positioning and success of a new venture.

Wherever possible, information is collected on the ground in person (although we also source extensive secondary data).

Our services include demographics, demand and supply analysis, competitor analysis and project-specific reports, providing recommendations in respect of market positioning, target markets, product mix, design features, desirable facilities, pricing structure and likely absorption rates. We also undertake needs analyses.

We are proud to be associated with clients who include some of Australia's leading listed companies. Our clients have included Austcorp Property Group, Dahua Group, Hope Island Resort, Keylin Group, Lendlease, Lewis Land, Mulpha Sanctuary Cove, Sheargold Group, Stockland, Tower Holdings, Landcom, Walker Corp and Winten Property Group.

While Colleen Coyne Property Research has focused in recent years on assignments for developer clients, Colleen has previously undertaken studies for National Australia Bank, Westpac Bank and Suncorp Metway. She was an external consultant to Property Investment Research (PIR) from 2000 to 2007.

Colleen holds a B.A. Dip. Ed. and Master of Urban & Regional Planning from the University of Queensland. She is a Member of the Planning Institute of Australia. She was the 2011 winner of the Urban Development Institute of Australia (Qld) Women in Development Excellence Award for industry support services.
